

DAISHIN LINEAR FEEDER

B SERIES

●DL-50B ●DL-65B DL-100B

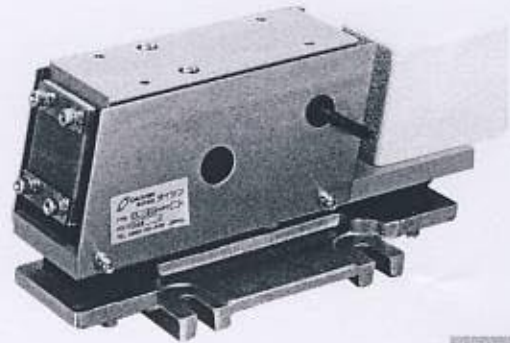

Model Designation (Example)

D L - 50B - 1

- Voltage (1:100V, 2:200V)
- Body type
- Linear feeder
- Name of the manufacturer (Daishin)

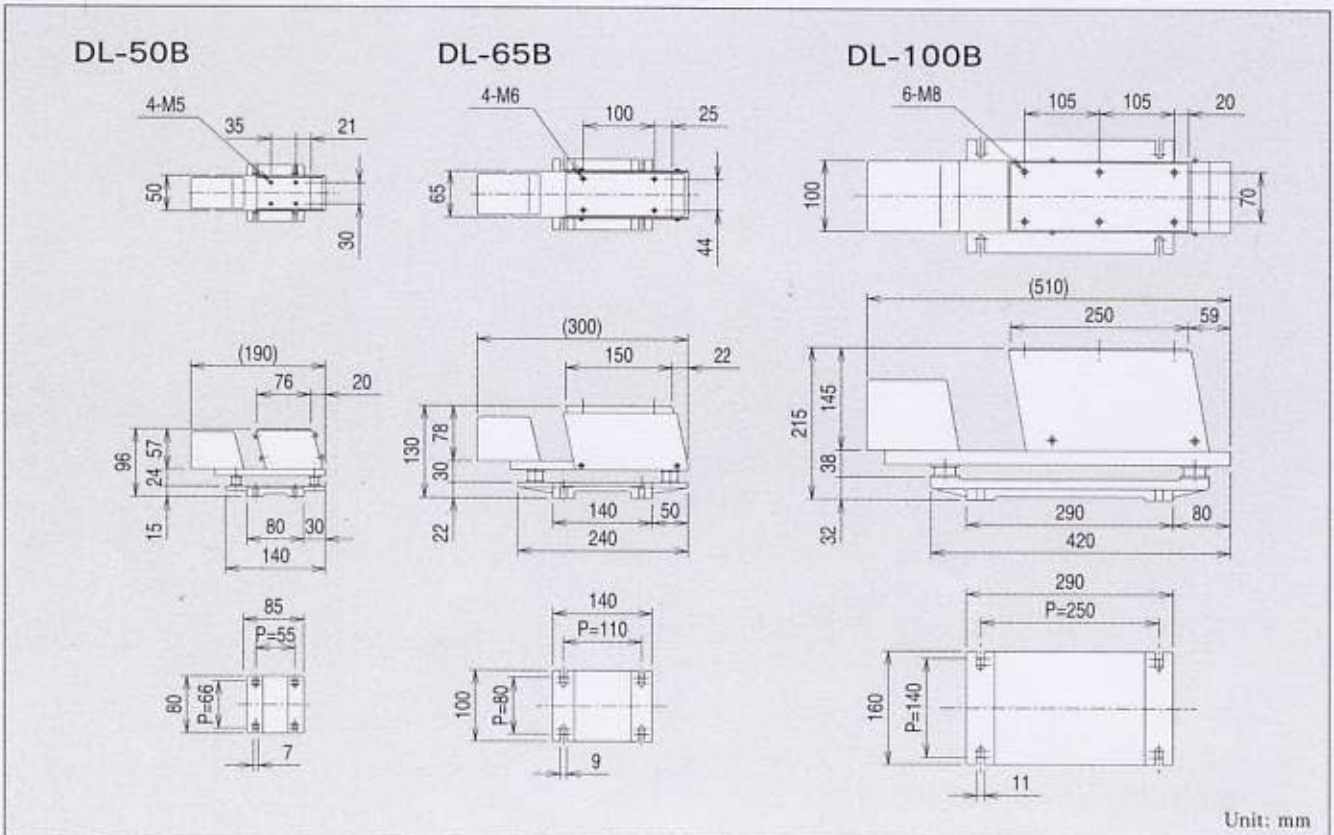

Features

The B-series Daishin Linear Feeders, which minimize vibration by rubber vibration isolator held between the vibrator and mounting base, can be installed in all sorts of environment. These are widely used linear feeders.

DL-65B

Specifications

Model	Specification	Input voltage (V)	Rated current (A)	Frequency of vibration (times/min)	Weight (kg)	Chute length (mm)	Chute weight (kg)	Applicable controller
DL-50B		100/200	0.2/0.1	6,000~7,200	2.8	200~300	1.0~1.5	IX-01/MH-1N
DL-65B		100/200	0.25/0.125	6,000~7,200	8.0	350~450	2.0~2.5	IX-01/MH-1N
DL-100B		100/200	1.6/0.8	3,000~3,600	39.0	450~700	2.5~4.5	IX-01.02/MH-1N
